

# Developing Rule Solutions in IBM Operational Decision Manager V8.10

## Course Corrections Document

May 19, 2020

**WB404 (Classroom)**

**ZB404 (Self-paced)**

**ERC 1.0**

### About this document

This document contains information about issues that were encountered during deliveries of this course. These issues will be addressed in subsequent updates of the material.

You should review this document before the start of class, and use this list as the first point of reference if issues arise.

## Exercise Guide items

### Exercise 3: Modeling decisions, Sections 3 and 4

#### Step 1

##### Issue:

Recent updates to Decision Composer cause an error when importing .dproject files to Business console V8.10.0.

Also, the **Runner** sample was renamed **Basic Recommendation**.

##### Workaround:

The import issue is resolved in ODM V8.10.1. However, for this course, which uses V8.10.0, you can either skip exercise 3, or if you want to try modeling in Decision Composer, skip **sections 3 and 4** of exercise 3.

## Notebook items

None reported.

## Course presentation items by unit

None reported.
