

## Cloud Learning Catalog

For the latest version of this catalog, go to

<https://www.ibm.com/developerworks/community/wikis/home?lang=en#!/wiki/WebSphere%20Education%20Wiki/page/IBM%20Learning%20Package%20Course%20Catalog>. The PDF is attached at the bottom of the page.

This catalog lists the Cloud digital learning courses. These courses are in Web-Based Training (WBT), Self-Paced Virtual Classroom (SPVC), and Microlearning formats.

Web-Based Training (WBT) courses provide lecture material in text or graphic form, sometimes including audio narration and recorded demonstrations. Free WBT courses are web-based courses that you can attend without using a token.

Free WBT courses are web-based courses that you can attend without using one of the tokens you receive with your subscription. You can take a Free WBT at any time, not just during the subscription time period. Click the course code to enter a course.

Self-Paced Virtual Classroom (SPVC) courses include material as described in the WBT course above, plus hands-on exercises using IBM software. Students have access to a hosted lab environment over a 30-day period to allow ample time to complete the class. The 30-day period starts when the student launches the lab within the course. When the 30-day period is over, students are unable to access that lab environment.

Microlearning courses are very short, lab-based courses. You use an SPVC token to enroll in these courses. All other rules for SPVCs apply.

Some courses support Cloud Paks as indicated:

CP4I: Cloud Pak for Integration

CP4Auto: Cloud Pak for Automation

CP4App: Cloud Pak for Application

CP4MCM: Cloud Pak for Multicloud Management

Learning Packages are designed to drive adoption by empowering your users to be successful and self-sufficient. For more details contact us at [treed1@us.ibm.com](mailto:treed1@us.ibm.com) or [BENNESJ@uk.ibm.com](mailto:BENNESJ@uk.ibm.com).
