

## Offering Summary

### F179 – IBM Enterprise Records 5.1: System Configuration

This course is for anyone who is planning to configure an IBM Enterprise Records system for use by records managers and users.

You work with a fully functioning IBM Enterprise Records system to practice the skills required for system configuration.

#### What you will learn

- Configuring an object store for record declaration
- Creating a record class that allows property mapping from document to record
- Creating and using a new link class
- Modifying security on a category
- Controlling access to IBM Enterprise Records assets and functionality from IBM FileNet Workplace
- Creating and using security markings
- Exporting and importing a file plan

#### Who should take this course

- Anyone who administers an IBM Enterprise Records system

#### Prerequisites

- IBM FileNet P8 Prerequisite Skills 4.5 (F040) or equivalent experience
- IBM FileNet P8 Administration 4.5 (F042)
- IBM Enterprise Records 5.1: Core Skills (F178)

#### Objectives

- Acquire the knowledge and skills necessary to configure an IBM Enterprise Records system for use by users and records managers

#### Course length

1 day
