Cloud Learning Catalog

For the latest version of this catalog, go to http://ibm.biz/CloudEducationResources.

This catalog lists the Cloud digital learning courses. These courses are in Web-Based Training (WBT), Self-Paced Virtual Classroom (SPVC), and Microlearning formats.

A subscription is a fixed-price service, valid for a set period (such as 12 months). It provides an access code to a container of Cloud training content hosted on IBM's Digital Learning Platform.

Web-Based Training (WBT) courses provide lecture material in text or graphic form, sometimes including audio narration and recorded demonstrations.

Free WBT courses are web-based courses that you can attend without using one of the tokens you receive with your subscription. **You can take a Free WBT at any time, not just during the subscription time period.** Click the course code to enter a course.

Self-Paced Virtual Classroom (SPVC) courses include material as described in the WBT course above, plus hands-on exercises using IBM software. Students have 168 hours of access to a hosted lab environment over a 31-day period to allow ample time to complete the class. The time period starts when the student launches the lab within the course. When the 168 hour / 31-day period is over, students are unable to access that lab environment.

Microlearning courses are very short, lab-based courses. You use an SPVC token to enroll in these courses. All other rules for SPVCs apply.

Some courses support Cloud Paks as indicated:
       CP4I: Cloud Pak for Integration
       CP4Auto: Cloud Pak for Automation
       CP4App: Cloud Pak for Application
       CP4MCM: Cloud Pak for Multicloud Management

Learning Packages are designed to drive adoption by empowering your users to be successful and self-sufficient. For more details contact us at treed1@us.ibm.com or CloudIntegrationEdu@uk.ibm.com.

Segment	Cloud Pak	Course Code	Course Title	Type
IBM Garage Method			Explore the Garage Method for Cloud	Free WBT
			Become a Garage Method for Cloud advocate	Free WBT
			Test-driven development	Free WBT
			Get started with agile development and continuous delivery	Free WBT
			Get started with application monitoring	Free WBT
			Get started with analytics to learn how people use your app	Free WBT
Architecture			Containers and Docker	Free WBT
			Kubernetes 101	Free WBT
			Get started with Helm to configure and manage Kubernetes charts	Free WBT
			Explore application modernization	Free WBT
			Advanced networking for IBM Cloud VPC	Free WBT
			Explore Cloud Service Management and Operations	Free WBT
			Become a Cloud Service Management and Operations advocate	Free WBT
			Become a ChatOps advocate	Free WBT
Application Platform		DL09000G	JVM Problem Determination, Garbage Collection and Tools	Free WBT
		DL09001G	IBM WebSphere Application Server Migration Toolkit V9	Free WBT
		DL09002G	Out of Memory Problem Determination	Free WBT
		DL09010G	How To: Access your docker container file system	Free WBT
		DL09011G	How To: Mount a host file or folder into your docker container	Free WBT
		DL09012G	How To: Create and mount Docker data volumes	Free WBT
		DL09013G	How To: Share volumes between containers	Free WBT
		DL09014G	How To: Docker - Mapping Container Ports	Free WBT
